AWDTS is now able to provide steroids testing at an affordable price. Reliable and accurate test results are comparable to World Anti-Doping Agency (WADA) Standard and detect a wide range of prescription and androgenic anabolic steroids.

Testing utilises the most sophisticated, sensitive and specific equipment and technology available to confirm steroids use.

Steroids/Sports Drug Testing is ideal for sports organisations, colleges and high schools, certified athletics trainers, coaches, Courts, corrections and law enforcement, mining, Department of Defence and occupational health agencies.

Features and benefits

- tests a wide range of steroids
- laboratory analysis provides confirmation evidence of use
- customer support services with access to clinical and forensic toxicologists
- tests performed using state of the art equipment
- fast turnaround time from receipt of specimen (within 10 working days)

What drugs can be tested for?

Steroid screen for hair samples:

19-Norandrostenedione	Mesterolone	Stanozolol
Androstenedione	Methandienone	Testosterone
Boldenone	Methenolone	Testosterone 17-phenylpropionate
Boldenone undecanoate	Methyltestosterone	Testosterone benzoate
Boldenone undecylenate	Mibolerone	Testosterone cypionate
Boldione	Nandrolone	Testosterone decanoate
Calusterone	Nandrolone decanoate	Testosterone enanthate
Clostebol	Nandrolone laurate	Testosterone isocaproate
Danazol	Nandrolone phenylpropionate	Testosterone propionate
DHEA	Norbolethone	Testosterone undecanoate
Drostanolone	Norclostebol	THG
Fluoxymesterone	Norethandrolone	Trenbolone
Formestane	Normethandrolone	Turinabol
Gestrinone	Oxandrolone	<i>Current as at May 2016</i>

AWDTS provides nationally-accredited training in alcohol and drug testing to pathology firms, the medical and legal firms and industry and employ several forensic toxicologists and biochemists, three of whom serve on Australian Standards committees.

Experienced collectors will be available nationally in all capital cities and major regional centres. A trained collector will obtain the sample utilising the sample collection kit and then forward to us for laboratory analysis. Collection is currently available in Brisbane, Gold and Sunshine Coasts, Sydney and Newcastle. Appointments may usually be obtained within a week of booking.

Laboratory results are reported electronically. A hair test result is available in one to two weeks post sample collection. Results are reported only to the person nominated to receive the results. The report details whether the drugs listed above were detected or not.

Costs (as at July 2019)

Drug screen test and report for single hair sample:

(Covers collection, air freight, laboratory costs and a short report detailing drugs tested and any detections) \$900 (Excl GST)

Additional Reporting (if required for Court) Hourly rate \$330 (Excl GST)
(Dr Michael Robertson, one of Australia's leading forensic hair follicle drug testing experts is available for written opinion or as an expert witness).
